Dear Customers,

Tariff Adjustments - 60 Day Industry Notice

Effective from 1 January 2022, customers are advised that VICT will implement the following revised tariffs:

- Import Storage Charges
- Late Receival Fee
- Maritime Security Levy
- Vehicle Booking System Charges

As Australia's first fully automated container terminal, we are committed in continually investing in our technology and people to provide productivity and efficiencies for both our quayside and landside customers.

Throughout the next 24 months, there will be berth works to extend the current quay line and to complement, VICT has committed to invest \$139m into our quay and landside offering for our customers.

VICT has completed an extensive review of our tariffs for the upcoming year that includes some lines being reduced, kept as current or adjusted.

There will be a new tariff line for side-loader trucks visiting our terminal, the new charge will cover the manual elements of handling each container on this chassis type. This is necessary due to of the obstruction that the trailer design presents to our automation.

VICT are strong supporters of the Victorian Department of Transport Voluntary Pricing for Stevedore Landside Charges.

We would like to invite all parties to submit their enquiries related to the tariffs to customer@vict.com.au. Our responses will be directly shared with the parties and the Department of Transport to upload onto their website.

Regards,

Patrick Chan
